Water Treatment Training Material and Comprehensive Quiz

Direction: Choose the best answer and encircle the letter.

1. **A semi-permeable membrane removes ions and unwanted particles during this process.**
☒ A. Reverse osmosis
☐ B. Carbon filtration
☐ C. Deaeration
☐ D. Settling

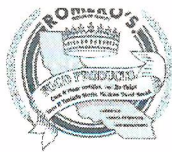

2. **Activated _____ can reduce organic compounds and chemicals found in drinking water. It can dissolve radon, minimize the quantity of lead, and remove solvents, pesticides, and industrial wastes.**
☐ A. Reverse osmosis
☒ B. Carbon filters
☐ C. Deaeration
☐ D. Settling

3. **A _____ system uses a tank to remove suspended particles from water.**
☐ A. Reverse osmosis
☐ B. Carbon filtration
☐ C. Deaeration
☒ D. Settling

4. **The cleanliness of the water supply should be verified.**
☐ A. daily
☐ B. monthly
☒ C. annually

5. **During this treatment, the unwanted contaminants are removed from the water and replaced with a non-harmful substance**
☐ A. Reverse osmosis
☐ B. Carbon filtration
☒ C. Ion exchange
☐ D. Settling
